Response to Amendment

1. The amendment filed on July 25 2005 has been fully considered but are not deemed to be persuasive.

Response to Amendment

In response to applicant's arguments in page 12, first paragraph that "Tornabene fails to teach or suggest at least "highlight file table for managing highlight file names and respective storage locations registered to said client using registration information about which notification has been given by the highlight file registration means of said client," and that "the highlighted file names indicate locations where the files are stored," The examiner notes that Tornabene teaches a subscriber profile server and a database for storing large amounts of subscriber profile data that include, subscriber's buddy list, alert preferences requested by the subscriber, designated stocks and identified interests ¶ 0063-0064 and ¶ 0080-0086. See also ¶ 0059-0062; ¶0080-0085 and ¶ 0091). Alerts and notification messages are sent to registered group members displayed on the highlighted list ¶ 0059-0064, ¶ 0077 and ¶ 0083. See also ¶ 0096). Furthermore, Tornabene teaches shared personal profiles that include among other things homepages ¶ 0078-0082 and

Art Unit: 2153

invitation with embedded hyperlinks to link group members website addresses. Both home pages and hyperlinks indicate the location where files/documents are stored ¶ 0084-0087 and 0091. Tornabene also teaches invitations with embedded hyperlinks as explained above and a user interface may allowing group members to select and input information (e.g., new group, screen names of invited members) to the group communicator where the entered information are extracted ¶ 0091.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before

Art Unit: 2153

November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

2. Claims 1-14 are rejected under 35 U.S.C. 102(e) as being anticipated by Tornabene et al U.S. PUB. No. (20020023132).

As claims 1,8-10, Tornabene et al teach a shared information processing system (fig. 1 and abstract) comprising

a client including highlighted file registration means for accepting from a user a request for registration of a highlighted file (automatically updated services provided to current members of the group (registered subscribers) include, providing a private group website, a list of current group members, a shared buddy list, shared member profiles, a private on-line forum for group members to chat with one another, a shared list of favorite sites, a shared photo gallery, and/or any other type of shared data files (§ 0084 and § 0091. See also § 0057-0058 and § 0030 and 0070) and performing registration of only a file name on a highlighted file list (selecting screen name of member to be invited to register for alerts by using mouse clicking § 0080-0085), and also notifying said server of registration information for said highlighted file § 0059-0060

Art Unit: 2153

and ¶ 0080-0085);

highlighted file management means for acquiring information pertaining to said highlighted file through said server and managing the same (¶ 0059-0062 and ¶ 0080-0085); and

highlighted file status display means for displaying information pertaining to said highlighted file (A list of current group members may be displayed on the website or accessed by a hyperlink. The list also may indicate the online status of each group member ¶ 0080-0085); and

said server comprising highlighted file table management means for managing highlighted file names registered to said each client using registration information about which notification has been given by the highlighted file registration means of said client (¶ 0059-0062 and ¶ 0080-0085 and ¶ 0091); and

highlighted file information notification means for acquiring information pertaining to a highlighted file managed by the highlighted file table management means (subscriber's profile data include, subscriber's buddy list, alert preferences requested by the subscriber, designated stocks and identified interests, ¶ 0063-0064 and ¶ 0080-0086); and

giving notification thereof to the client where the highlighted file is registered (alerts and notification

Art Unit: 2153

messages and are sent to group members displayed on the list ¶ 0059-0064 , ¶ 0077 and ¶ 0083. see also ¶ 0096);

wherein highlighted file names indicate locations where the files are stored (hyperlinks and home pages indicate the location where files/documents are store ¶ 0078-0082 ¶ 0084-0087 and 0091), and wherein a plurality of users (chat group members/users ¶ 0030 and 0058) can communicate simultaneously by the sharing channel set up on a network by a server and clients interconnected over said network (figs 2-3, login server 470 may implement one or more authorization procedures to enable simultaneous access to the OSP host complex 480 and the IM host complex 490, ¶ 0046 and 0056. See fig. 2 and 4), and notify other clients of a chat character string inputted by a user through a client (alerts and notification messages and are sent to group members ¶ 0059-0064, ¶ 0077 and ¶ 0083).

As claim 2, Tornabene et al teach the shared information processing system according to claim 1, wherein said highlighted file information notification means acquires basic information such as where said highlighted file is stored ¶ 0063-0064 and ¶ 0091-0092), and notifies said client thereof (¶ 0059-0064, ¶ 0077 and ¶ 0083. see also ¶ 0096).

Art Unit: 2153

As claim 3, Tornabene et al teach the shared information processing system according to claim 1, wherein said highlighted file information notification means acquires update information such as when and by whom said highlighted file was updated, and notifies said client thereof (§ 0059-0064, § 0077 and § 0083-0084. see also § 0096).

As claim 4, Tornabene et al teach the shared information processing system according to claim 1, wherein said server further comprises user information management means for acquiring user information about a user that has registered said highlighted file at said client, and notifies the administrator of said highlighted file of statistical information based on said user information (§ 0063-0064 and § 0072).

As claim 5, Tornabene et al teach a shared information processing system comprising:

a server including highlighted file table management means for managing for managing highlighted file names registered to said each client using registration information about which notification has been given by the highlighted file registration means of said client (§ 0059-0062; § 0063-0064 and § 0080-0086 and § 0091) and for managing the correspondence between a

Art Unit: 2153

channel and a highlighted file related to that channel (§ 0047-0048 and § 0057-0059); and

update information notification means for acquiring update information for said channel and updating information pertaining to the corresponding highlighted file, acquiring update information for said highlighted file and updating information pertaining to the corresponding channel , and notifying each client of the update information (subscriber's profile data include, subscriber's buddy list, alert preferences requested by the subscriber, designated stocks, identified interests, and geographic location. § 0063-0064 and § 0080-0086); and

said client comprising highlighted file management means for acquiring information pertaining to a highlighted file related to said channel through the server and managing the same (§ 0059-0062 and § 0080-0085 and § 0091-0096); and

highlighted file status display means for displaying information pertaining to said highlighted file (A list of current group members may be displayed on the website or accessed by a hyperlink. The list also may indicate the online status of each group member § 0078 and § 0080-0085),

wherein highlighted file names indicate locations where the files are stored (hyperlinks and home pages indicate the location where files/documents are store § 0078-0082 § 0084-0087

Art Unit: 2153

and 0091), and wherein a plurality of users (chat group members/users ¶ 0030 and 0058) can communicate simultaneously by the sharing channel set up on a network by a server and clients interconnected over said network (figs 2-3, login server 470 may implement one or more authorization procedures to enable simultaneous access to the OSP host complex 480 and the IM host complex 490, ¶ 0046 and 0056. See fig. 2 and 4), and notify other clients of a chat character string inputted by a user through a client (alerts and notification messages and are sent to group members ¶ 0059-0064, ¶ 0077 and ¶ 0083).

As claim 6, Tornabene et al teach the shared information processing system according to claim 5, the server further comprising accessory part management means for managing the correspondence between accessory parts of a highlighted file related to a channel and accessory parts within a channel (¶ 0069-0072 and ¶ 0080-0085 and ¶ 0090); and

accessory part update information management means for acquiring update information for accessory parts within said channel and updating information pertaining to accessory parts of the corresponding highlighted file, and acquiring update information for accessory parts within said highlighted file and updating information pertaining to accessory parts within the

Art Unit: 2153

corresponding channel, and notifying said each client of said update information (§ 0059-0064 , § 0077 and § 0080-0085. see also § 0096).

As claim 7, Tornabene et al teach the shared information processing system wherein a plurality of users can communicate simultaneously by the sharing of one of virtual chat rooms (hereinafter "channel") set up on a network by a server and clients interconnected over said network, and the notifying of other clients of a chat character string inputted by a user through one said client, said client comprising highlighted file name extraction means for extracting file names that can be registered as highlighted files from a chat character string inputted by a user within a channel (§ 0048 and , § 0070. See also § 0059-0064, § 0077 and § 0083);

highlighted file registration determination means for determining whether or not a file corresponding to an extracted file name is to be registered as a highlighted file (§ 0048 and § 0070. See also § 0059-0064, § 0077 and § 0083);

highlighted file registration means for registering a highlighted file as related to a corresponding virtual chat room when the highlighted file registration determination means determines that a highlighted file is to be registered, and

Art Unit: 2153

notifying said server of registration information for said highlighted file (automatically updated services provided to current members of the group (registered subscribers) include, providing a private group website, a list of current group members, a shared buddy list, shared member profiles, a private on-line forum for group members to chat with one another, a shared list of favorite sites, a shared photo gallery, and/or any other type of shared data files (§ 0084 and § 0091. See also § 0057-0058 and § 0030 and 0070);

highlighted file management means for acquiring information pertaining to said highlighted file through said server and managing the same (§ 0059-0062 and § 0080-0085); and

highlighted file status display means for displaying information pertaining to said highlighted file; and

said server including highlighted file table management means for managing highlighted file names registered to said client using the registration information about which notification has been given by the highlighted file registration means of said client (§ 0078 and § 0080-0085); and

highlighted file information notification means for acquiring information pertaining to a highlighted file managed by said highlighted file table management means, and giving notification thereof to the channel or the client where said

Art Unit: 2153

highlighted file is registered (§ 0057-0062 and § 0080-0085 and § 0091. See § 0047-0048),

wherein a plurality of users (chat group members/users § 0030 and 0058) can communicate simultaneously by the sharing channel set up on a network by a server and clients interconnected over said network (figs 2-3, login server 470 may implement one or more authorization procedures to enable simultaneous access to the OSP host complex 480 and the IM host complex 490, § 0046 and 0056. See fig. 2 and 4), and notify other clients of a chat character string inputted by a user through a client (alerts and notification messages and are sent to group members § 0059-0064, § 0077 and § 0083). As per claims 11-14, these claims have similar limitations as claims 1, 5 and 7. Therefore, they are rejected with the same rationale. See claims 1, 5 and 7.

Conclusion

3. **ACTION IS MADE FINAL.** See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this

Art Unit: 2153

action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.

The prior made of record and not relied upon is considered pertinent to applicant's disclosure.
